

SCORE MORE SAVINGS AND SATISFACTION FOR YOUR MEDICARE ADVANTAGE MEMBERS

Everything you need from pharmacy transparency, and more than you imagined

Rx Savings Solutions helps members reduce out-of-pocket costs and your health plan's pharmacy spend. When Medicare Advantage beneficiaries have transparency into prescription costs and alternatives, the benefits for your plan transcend dollars and cents.

Transparency: Members know the cost of every prescription and lower-cost, clinically sound alternative on the formulary

Engagement: Every member with an opportunity to save is notified and given easy paths to switch

Simplicity: One click initiates concierge service for provider approval interaction and Rx transfers

Adherence: Affordable medication makes it easy to stay with prescribed therapies without interruption

Satisfaction: Happier, healthier members have more reasons to trust your plan and rate it favorably

One Thing Leads to Another

Did You Know?

A \$10 increase in out-of-pocket cost per drug results in a

23%
decrease
in total drug
consumption

33%
increase
in monthly
mortality

(National Bureau of Economic Research)

Members who make a medication change generate an average of **\$100 in savings per prescription fill.**

**\$31
MEMBER**

**\$69
HEALTH
PLAN**

More Than Ready for Pharmacy Transparency Regulations

Your plan's success rests largely on empowering Medicare Advantage members to be savvy consumers. Rx Savings Solutions' meets all the member-facing Real-time Benefit Tool (RTBT) requirements of CMS-4190 (January 2021 final ruling on Medicare Part D regulation).

Required by 2023: Starting January 1, 2023, Part D plans will be required to offer a comparison tool allowing enrollees to review options under their current prescription drug plan, as well as the ability to choose lower-cost alternative therapies.

All 10 RTBT Requirements? Done!

- ✔ Beneficiary OOP cost based on phase
- ✔ Easy to understand
- ✔ Cost-share amounts at in-network pharmacies
- ✔ Beneficiary-specific portal or app
- ✔ Beneficiary and plan costs, plus alternatives
- ✔ Available Certified Pharmacy Technicians
- ✔ On-formulary alternatives for every condition
- ✔ Dynamic pricing information
- ✔ Formulary status, UM requirements for alternatives
- ✔ Ability to reward and incentivize enrollees to use

It's Easier to Adhere to Affordable Medications

We guarantee hard dollar ROI but our solution doesn't stop there. A health plan with 30K members could see an incremental yearly savings related to total cost of care, like this one:

\$412K
Oral Diabetics

\$143K
Statins

\$82K
RASA

Realign for the Stars

Starting in 2023, patient experience and administrative measures will account for 54% of CMS Star Ratings. **A stronger pharmacy benefit can give your plan an advantage on CAHPS Measures.**

17% → 32%
increase in CAHPS Measures

2 → 4
weighting for Patient Experience/Complaints

19
medication-related CAHPS Measures

With our solution, MA populations are more highly engaged than the commercial population of the same plans.
