

TIERxCheck

Give Your Teams Next-Level Ease and Efficiency with Online Formularies

Digitally transform static formularies into a simple, dynamic experience.

Put Endless PDF-Searching to Rest

Consultants and Brokers

Facilitate better conversations by curating important information quickly, easily, and with immediate customization, comparison and list-building capabilities.

Clients and Plan Members

Get an intuitive and powerful decision-making tool at their fingertips.

Save Time and Take Action

Smarter Searching (and Selling)

The power to distill hundreds of PDF pages into instant information gives your teams a powerful advantage for consultative support with their groups.

Rapid Research

The ability to create and export drug lists for specific groups puts impactful information into consultants' hands without hours of tedious, manual searching.

Our Tech, Your Brand

Cloud-based and mobile-responsive, the interface is private-labeled to reflect your brand language and naming conventions for a seamless experience.

Simple Implementation

Secure data feeds with Rx Savings Solutions and PBMs makes TIERxCheck implementation is a snap.

Check Coverage and Cost Across All Available Formularies

1

Multiple ways to search for any drug

2

Toggle between available formularies to compare

3

Adjust and confirm dosage for greater accuracy

4

View average prices based on plan's claims history

5

Determine coverage/ no coverage and find alternatives
